

Gord Scarlett would like to announce the sale of Sexsmith Used Farm Parts, effective Friday, May 7th.

Starting with a single piece of farm equipment in 1986 and growing to an inventory of several thousand pieces, Gord started out as the buyer, trucker and seller. Since then, he has done business with individuals and businesses across Canada, United States, and as far away as Australia, Malaysia and Britain.

Gord would like to thank all the customers and suppliers who have supported the business over the past 35 years.

A special thank you to the countless employees who have helped to build the business, many who have gone on to build their own very successful businesses.

A big thank you to the current Manager, Rod Kiddine, whose dedicated service for over 33 years has been critical to the success of the business.

Gord wishes continued success for the business, which will include the same knowledgeable and friendly staff, at the same location, but under new ownership.
